

Login

Epic: Login [SEM-2860: Login](#) TO DO

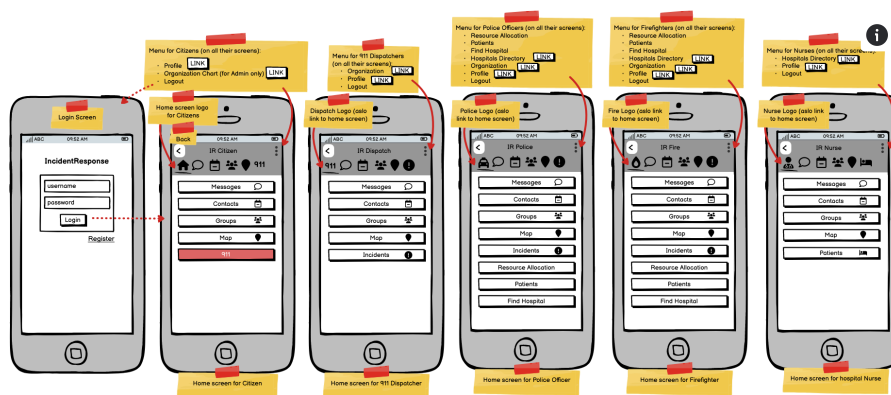

Goals

- The use case allows the IncidentResponse (IR) user to login by providing a username and password.
- The user reaches his/her home screen based on user type (Citizen/Administrator, Dispatcher, Police Officer, Firefighter, or Nurse).

Background and strategic fit

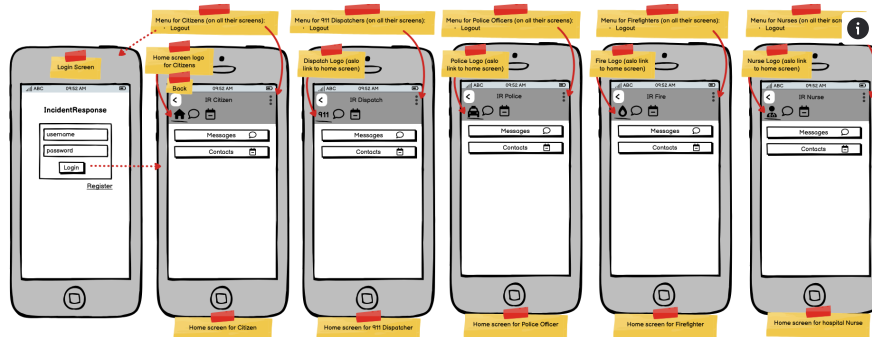

Login is a pre-requisite for using the product.

User interaction and design

The complete interaction prototype is available [here](#).

The interaction to be implemented during Sprint 1 in the context of Login is as follows:

Assumptions

- Users are already registered.

Requirements

#	User Story Name and Motivation	User Story Acceptance Criteria	Importance	Notes
1	Citizen Login  SEM-2 861: Citizen Login  As a Citizen or Administrator I want to access the IR Citizen home screen at login So I can access features created for my needs	Given that I am a Citizen or Administrator When I click on Login Then the system takes me to the IR Citizen home screen (see prototype above and notes)	Must Have	Elements to add or change compare to existing implementation: • Add Back button • Change screen title to "IR Citizen" (or "Incident Response Citizen") Do not worry about other changes.
2	Dispatcher Login  SE M-2862: Dispatcher Login  As a Dispatcher I want to access the IR Dispatch home screen at login So I can access features created for my needs	Given that I am a Dispatcher When I click on Login Then the system takes me to the IR Dispatch home screen (see prototype above and notes)	Must Have	This screen is very similar to the Citizen's screen. Elements to add or change: • Update screen title to "IR Dispatch" (or "Incident Response Dispatch") • Replace Home logo with Dispatch logo Do not worry about other changes.
3	Police Login  SEM-28 63: Police Login  As a Police Officer I want to access the IR Police home screen at login So I can access	Given that I am a Police Officer When I click on Login Then the system takes me to the IR Police home screen (see prototype above and notes)	Must Have	This screen is very similar to the Citizen's screen. Elements to add or change: • Update screen title to "IR Police" (or "Incident Response Police")

	features created for my needs			• Replace Home logo with Police logo Do not worry about other changes.
4	Fire Login  SEM-286 4: Fire Login  As a Firefighter I want to access the IR Fire home screen at login So I can access features created for my needs	Given that I am a Firefighter When I click on Login Then the system takes me to the IR Fire home screen (see prototype above and notes)	Must Have	This screen is very similar to the Citizen's screen. Elements to add or change: • Update screen title to "IR Fire" (or "Incident Response Fire") • Replace Home logo with Fire logo Do not worry about other changes.
5	Nurse Login  SEM-28 65: Nurse Login  As a Nurse I want to access the IR Nurse home screen at login So I can access features created for my needs	Given that I am a Nurse When I click on Login Then the system takes me to the IR Nurse home screen (see prototype above and notes)	Must Have	This screen is very similar to the Citizen's screen. Elements to add or change: • Update screen title to "IR Nurse" (or "Incident Response Nurse") • Replace Home log with Nurse logo Do not worry about other changes.
